

NEW-YORK DAILY TRIBUNE, THURSDAY, NOVEMBER 9, 1893.—TWELVE PAGES.

THE HAWAIIAN MONARCHY.

NO BASIS FOUND FOR RUMORS THAT IT IS TO BE RESTORED.

ALLEGED "LEAKS" AT THE STATE DEPARTMENT AS TO MINISTER WILLIS'S INSTRUCTIONS—HIS ARRIVAL AT HONOLULU EXPECTED YESTERDAY.

Washington, Nov. 8.—Simultaneous publication, East and West, of statements supposed to originate in a "leak at the State Department," to the effect that the Administration's instructions to Minister Willis contemplated practically the restoration of the Hawaiian monarchy, have occasioned much comment and inquiry. If there have been any "leaks in the State Department" on this subject, they certainly have not been through the higher officials who have maintained the most consistent and imperious reserve on all matters relating to the Hawaiian policy of the United States. Investigation at the Hawaiian Legation threw little light on the question, except as suggesting a possibility that the statements had their origin in a letter received at the Legation a day or two ago from Charles R. Bishop, a leading resident of the islands, who is at present in San Francisco. He wrote, that since the arrival there of Minister Willis, on his way to Honolulu, from Washington, it had been rumored that his instructions included the restoration of the monarchy, and he asked if the Legation knew anything that would demonstrate the truth or falsity of the rumor. In the same letter Mr. Bishop noted the arrival in San Francisco of Judge Hartwell, a retired member of the Supreme Court of the islands, who served throughout the war in the Union Army. Judge Hartwell said, wrote Mr. Bishop, that the Royalists in Hawaii believed that the coming of Minister Willis meant the restoration of the monarchy if it could be brought about.

It is possible that the statement of the intention to restore the monarchy attained publicity through the fact that Minister Willis, before leaving San Francisco, was credited with saying that the position of the United States Government toward Hawaii would be made known officially in ten days. He is believed to have arrived at the islands yesterday from San Francisco, and it has been assumed that he would formally declare the policy of the Government as soon as he landed. It is regarded here as improbable that his instructions go so far as to warrant the statement that a restoration of the monarchy through any direct intervention of the United States is contemplated. But it has been asserted that the Hawaiian Queen was deposed as a result of the landing of United States marines, and that the revolution could never have succeeded had not the Royalists been impressed with the belief that these marines would act with the revolutionaries if the latter were restored.

So far as can be learned at the Navy Department, there is no intention of making any change at present in the naval force in Hawaiian waters by withdrawing one or both of the ships now there. New sheet music Irwin was due at Honolulu yesterday, and in assuming command of the American naval vessels might be supposed to be in a position, in case of a revolution, to make greater freedom than Commodore Skerrett, whose long stay in Hawaii must naturally have been

accompanied by the making of many friendships and acquaintances.

MR. SPRECKELS PROFESES IGNORANCE.

San Francisco, Nov. 8.—J. D. Spreckels, when asked his opinion as to the credibility of a telegram from Washington stating that the United States Minister to Hawaii had instructions to restore the Queen, manifested the most profound ignorance, declaring he had not the least idea of the instructions under which United States Minister Willis was authorized to proceed. He commented that soon after the fall of Liliuokalani's restoration to the throne, and I am certain that if she is restored there will not be the least disturbance, as her upholders are in the majority, and would undoubtedly prevent any civil uprising.

WORK OF THE RAILWAY MAIL SERVICE.

ITS EXTENSION IN THE LAST FISCAL YEAR—A RELIEF MEASURE RECOMMENDED.

Washington, Nov. 8.—The annual report of J. Lowrie Bell, the Second Assistant Postmaster-General, shows that the total expenditure for mail transportation was \$45,367,567, and of this amount \$5,781 was on account of star routes and \$5,765,007 was on account of the Pacific. The report shows that these are now in operation, aggregating 24,939 miles in length; 2,755 miles of railroad routes, aggregating 86,562 miles; 7,255 miles of messenger routes, aggregating 5,726 miles, and 2,312 special office routes, aggregating 20,639 miles. The increase in the number of routes during the year was 98, and in the length of routes, 6,241 miles. The increase in the annual rate of expenditure was \$1,282,625. During the last fiscal year the railway post-office cars were increased to 1,000, and the number of drivers to 1,000, which resulted in loss of life or serious injury. Ten clerks were killed, and 118 slightly injured.

Commenting upon these facts, Mr. Bell says:

"The department is permitted to incur, but not authorized to incur, extra expense for the benefit of the public, and the department is responsible for any losses incurred."

Mr. Bell recommended the enlargement of the railway mail service, and asks that it be brought to the attention of Congress.

TREASURY BALANCE AT LOW-WATER MARK.

Washington, Nov. 8.—The Treasury balance has its head just above \$100,000,000, of which \$45,000,000 is in gold and \$60,000,000 in currency. This is the lowest Treasury balance in recent years, and is caused by the heavy expenditures and falling receipts. It is stated, however, that the balance in this month, at least, as most of the heavy expenditures have been made, and the balance is expected to begin to rise.

PREPARED TO REGISTER THE CHINESE.

Washington, Nov. 8.—Commissioner John S. Miller of the Internal Revenue Bureau, has begun the preparation of the Treasury regulations for the registration of Chinese under the recent act of Congress extending the operation of the Geary law for six months. Congress made no appropriation for carrying the act into effect, and an appropriation for this purpose will have to be made by Congress when it meets in December. The Treasury Department, however, has an unexpended balance of about \$20,000, appropriated for the general pur-

pose of executing the several Chinese laws, which are to be put into operation. The census of 1890 placed the number of Chinese in this country at 100,000, while the Geary act provides for 130,000 Chinese.

According to the showing, there are 30,000 unregistered Chinese in the United States. Treasury officials place the number at 100,000.

SIX OF THE DEAD IDENTIFIED.

VICTIMS OF THE LAKE COLLISION THOUGHT TO HAVE BEEN RUN DOWN BY A PASSING STEAMER.

East Tawas, Mich., Nov. 8.—Owing to the mutilation of many of the bodies from the Philadelphia-Albion collision yesterday, it is now believed that the yawl containing twenty-four members of the combined crews was run into by some passing steamer. Of the men picked up by the following day, the most professed to be the Queen, manifested the most profound ignorance, declaring he had not the least idea of the instructions under which United States Minister Willis was authorized to proceed. He commented that soon after the fall of Liliuokalani's restoration to the throne, and I am certain that if she is restored there will not be the least disturbance, as her upholders are in the majority, and would undoubtedly prevent any civil uprising.

COAST GUARD CONVICTS REACH SAN FRANCISCO.

San Francisco, Nov. 8.—Five Russians who escaped from the island of Sachalin, a notorious Siberian penal prison, and were picked up by the whaler Charles W. Morgan in the Okhotsk Sea after days of suffering in an open boat, arrived here last night. Five others of the escaping party are expected to arrive in a few hours on the whaler Cape Horn Pigeon. The party of ten lived in an open boat for fourteen days with nothing to eat but rice, and were finally picked up by the whaler Morgan. Five of the party were transferred to the Cape Horn Pigeon on account of the scarcity of provisions on the Morgan. The party planned to escape for weeks. They had a small boat, a kettle, a pot, a blanket, a gun, and until they got a kettleful and a secreted some water. Then they stowed a canoe and escaped. One of the party intimated that two or three guards at the island might be missing.

BISHOP RYAN'S SILVER JUBILEE.

Buffalo, Nov. 8.—The main celebration of Bishop Ryan's silver jubilee was held to-day. A pontifical mass was celebrated by Monsignor Satullo. The jubilee sermon was preached by Archbishop Ryan of Philadelphia, who twenty-five years ago, in the same pulpit, preached the episcopal sermon for Bishop Ryan. After the mass Vicar-General Gleeson, in behalf of the clergy, delivered an address, and presented the Bishop with a substantial gift. Following this, Bishop Ryan, in his study, addressed the guests at the Silver Jubilee, where a banquet was spread and toasts, speeches and other entertainments closed the afternoon programme.

THE PROPOSED STEINZITZ LASKER MATCH.

Havana, Nov. 8.—The President of the Chess Club said to-day that nothing was known officially of the proposed match between Steinzitz and Lasker. Despite the personal efforts put forth by Molner in behalf of Steinzitz, the general belief is that the match will not be played in Havana.
